# Introduction

The Cochin Hebrew Matthew manuscript holds considerable importance as it was discovered in Cochin, India, in the synagogue of the Malabari Black Jews. Cochin, India, was a major trade route during the days of Yeshua, and the Cochin Hebrew Matthew (Cambridge MS Oo.1.32) was discovered in the synagogue of the Malabari Black Jews and was discovered by Claudius Buchanan in 1803 and copied in 1730. Additionally, the Cochin Hebrew Matthew was written in Mishnaic Hebrew with Aramaisms according to the First Century customs.

Matthew, a Jewish man, was proficient in both Hebrew and Aramaic, addressing an audience within the Jewish cultural sphere. Consequently, the Gospel of Matthew is dated 40 CE and is often considered the "most Jewish gospel." And according to historical accounts, two disciples, Thomas and possibly Andrew, traveled to Cochin, India, with writings from the New Testament.

## More Details on The Cochin Manuscripts

The Cochin Hebrew Matthew MS Oo.1.32 is the New Testament (MS Oo.1.32, Oo.16.1, Oo.1.16.2) gospels and writings, written in Hebrew, discovered in Cochin, India, by Claudius Buchanan in 1803 and copied in 1730. The manuscripts were assembled, collected, and possibly scribed by Ezekiel Rahabi II, the chief Jewish merchant of the Dutch East India Company in Cochin, India. However, when comparing the manuscripts of the Cochin Hebrew Matthew MS Oo.1.32, Oo.1.16.1, and the Cochin Hebrew Revelation MS Oo.1.16.2, it is possible that there were two different scribes in the writing of these manuscripts.

“Three distinct handwriting styles<sup>2</sup> in the manuscript testifies to a more complex history of composition than attributable to any single author. The first part (which is believed to be Rahabi’s handwriting) covers Matthew through Jude (ff. 1a–131b) and is written in a Sephardic (Spanish) cursive script, with the exception of Hebrews (ff. 90a– b) being written in a smaller cursive, and then followed by a third script covering Philippians to the end (ff. 132a–160b), which Myron M. Weinstein has argued belongs to the German immigrant David ben Isaac Cohen in Ashkenazic imitation of Sephardic style.”<sup>3</sup>

Yet, it is important to consider that if Ezekiel Rahabi II scribed both the MS Oo.1.32 and the MS Oo.1.16 manuscripts, Claudius Buchanan documented in his book, *Christian research in Asia*, published in 1811,<sup>5</sup> the following statement written by Ezekiel Rahabi II in the cover of the collection of the MS Oo.1.32:

Heaven is my witness that I have not translated this, God forefend, to believe it, but to understand it and know how to answer the heretics . . . that our true Messiah will come.  
Amen. Ezekiel Rahabi II

# Forward

I have been in the ministry for over 30 years and have seen many profound truths brought forth and astonishing discoveries made throughout my lifetime. I was up on a ladder painting and stretched out as far as OSHA would allow when the podcast YouTube was playing in my ear ended. Due to my precariously perched position, I could not stop whatever YouTube was going to suggest next. Suddenly, I began to hear the voice of Janice Baca and Bryan Williams talking about this “Cochin Hebrew Revelation”. Little did I know that this would not only open up a massive discovery for me and my faith, but also new friendships with beloved brothers and sisters in Messiah.

I am a textual nerd by hobby and passion. My wife Miranda bought me a complete Tanakh scroll in Hebrew from Israel one year. This prompted me to take Hebrew classes from the Hebrew University so I could begin to read from this scroll. My love for the nuances of the Hebrew language has taken off and helped me immensely in my studies and understanding.

Further whetting my appetite, I praise Yah for bringing Project Truth Ministries into my life. I have enjoyed their verse-by-verse dissection of the Hebrew Revelation out of Cochin, India. Seeing the Aramaisms myself, thanks to the interlinear provided by Janice and her team, is just something not done and indicates how these ancient manuscripts predate the Greek manuscripts that we have, making up our modern English translations.

I have looked into some of the criticisms of the Cochin and cannot find any that stick. One such argument against is the use of Yeshu instead of Yeshua in the manuscripts. The popular opinion on this is that the term Yeshu is a derogatory term found in the Talmud, mocking Yeshua and being an acronym for “May his name be blotted out”. This is absolutely true and began around the 2nd century AD. However, thanks to the scholarship of people like David Flusser and Joachim Jeremias - we see that the pronunciation of Yeshua began before the 2nd-century adoption in the Talmud. Their research shows that the last letter (ayin) was swallowed up in pronunciation in certain Galilean dialects. We know that the disciples grew up in the area of Galilee, we further know of certain “common and uneducated” men who wrote about Yeshua, and we would expect them to use this colloquial spelling of Yeshu.

Just like we see many times in the Cochin, the people throughout the years, did not “fix” the text to the Greek - we see this very early dialectic use of Yeshu coming through even to today. Another sign to me of the authenticity of the manuscript.

This Cochin Hebrew Matthew has markers not only pre-dating the Greek text but also Shem Tov’s Hebrew Matthew as well. There are some significant differences we are finding. I have begun pouring over these manuscripts and am seeing more clearly what my Messiah taught and said, I would encourage you to take your time and enjoy this like you would a good steak. Chew each morsel deliberately and incorporate the Hebrew concept of Selah with each thought.

I believe that with careful study of these Hebrew manuscripts, led by the Holy Spirit, Yah will deepen your walk and understanding. I believe we will see more Fruit of the Spirit begin to bud on your branches and they will be tasty to all those around you, leading them to come and see that Yehovah is good!

# Legend and Definitions

In the Cochin Hebrew Revelation MS Oo.1.32 interlinear tables, there are notes, tags, and footnotes. For reference, the following terms are defined below:

**Aramaism:** Due to the pressure of the surrounding language in Judea, Hebrew made a grammatical shift called “Aramaism.” These Aramaism markers are markers of the late Second Temple period. Some examples of Aramaisms are that the aleph tav (אָ) direct object markers are used less frequently to identify the direct object. But instead, the lamed (ל) is used as a direct object marker for definite and indefinite objects. There are also Aramaic words and phrases in the Cochin Hebrew Matthew MS Oo.1.32 and labeled accordingly with the Syriac script.

**Second Temple:** These are Second Temple words and/or spellings. The Second Temple is defined as spanning from the destruction of the First Temple in c. 586 BCE to the destruction of the Second Temple in c. 70 CE.
